

May 2026

To the Parents of **Chuong Do**,

The administrators and teachers at Craig Elementary are dedicated to providing quality instruction for each child enrolled at our school. Each spring, student scores are evaluated and this data is used to determine the level at which your student will be the most successful in building a solid foundation for future learning.

Based on the collected data, your child's placements will be in **Advanced Math**.

Advanced Math: Advanced Content (ADV) Math provides instruction on grade level AKS with the addition of extension activities and the exploration of concepts in greater depth.

The expectations for the advanced courses are that your child will maintain acceptable academic progress and consistently demonstrate motivation for production of high quality work on class activities, projects and assignments.

If you have any further questions, please do not hesitate to contact us.

Sincerely,

Angie Wright

Chuong Do
